

Introduction

Slovakia is a landlocked country in Central Europe. Neighboring countries include Austria, Czech Republic, Hungary, Poland, and Ukraine. The geography of Slovakia is known for its mountains, with the Carpathian Mountains extending across most of the northern half of the country. The government system is a parliamentary democracy; the chief of state is the president, and the head of government is the prime minister. Slovakia has a mixed economic system in which there is a variety of private freedom, combined with centralized economic planning and government regulation. Slovakia is a member of the European Union (EU).

Open Budget Index	21 / 114

Risk Assessment (Provided by Coface)

Country rating: A4 - A somewhat shaky political and economic outlook and a relatively volatile business environment can affect corporate payment behavior. Corporate default probability is still acceptable on average.

Business Climate rating: A2 - The business environment is good. When available, corporate financial information is reliable. Debt collection is reasonably efficient. Institutions generally perform efficiently. Intercompany transactions usually run smoothly in the relatively stable environment rated A2.

Strengths

- Member of the EU (2004), Eurozone (2009) and NATO (2004)
- Production platform for European automotive and electronics industries
- Satisfactory level of public debt
- Robust financial system dominated by foreign groups (notably Austrian, Belgian and Italian)

Weaknesses

- Small, open economy, dependent on European investment and markets
- High concentration of industry and exports: automotive and consumer electronics
- Inequalities in regional development: the East is lagging (infrastructure and training)
- Insufficient research and development, exports based on assembly activities (low added value)
- Shortage of skilled labor and high long-term unemployment (6% in 2023)
- Shortage of skilled labour and high long-term unemployment
