Assignments: Important: All assignments must be submitted through Blackboard. Do not email assignments! Assignments submitted through email will not be graded! If you are having technical difficulties then make sure to contact the MCC Student Helpdesk at (866)718-5170. The Student Helpdesk is available 24 hours a day, seven days a week. Students, this is your first line of technical support. They will assist you with Blackboard access and much more. If you have an issue that cannot be resolved over the telephone, the Student Helpdesk will create a trouble ticket to make sure you get the help you need.

All assignments will be posted in the LEARNING MODULES Panel. Remember to keep a copy of everything you submit on a separate disk for your records. Deadlines: The ability to meet deadlines and follow a schedule is needed to succeed in any career, especially in international business. Therefore, assignment deadlines have been established. If you are sick or will be out of town for work or vacation let me know and allowances will be made. Late assignments without instructor approval will be marked down by one grade. The instructor reserves the right to modify the schedule and course requirements during the term as conditions warrant. All written assignments, discussion board assignments, papers, and exams will always be due on the exact date posted. Appearance: All submitted homework assignments and papers must be free of spelling errors and project a professional appearance.

The Discussion Board: Make your postings by creating a new thread. Step 1. Read the request or question. 2. Answer it by clicking on the topic (Introductions) and then click on "New Thread" Do not click on new forum. In addition you must always begin a discussion with other students by responding to at least two other person's answer by either agreeing or disagreeing with them and explaining why. Interacting with other students is an important part of the discussion board and is a significant part of your assignment grade. Discussion Board Participation Guidelines: I consider active participation as follows: 1. Create a substantive initial main post for each of the discussion topics. 2. Respond to the posts of at least two of your fellow students. Your responses should be substantive posts that contribute to the discussion. You can create a substantive reply posting by asking questions, debating positions, or presenting examples that are relevant to the topic. (Remember, your discussion assignment is not complete until you have responded to at least two other students).
