This is a call for expressions of interest for chapter submissions for an edited book entitled: **‘Maritime Management: Trade, Supply Chain and Security’**. You are invited to send an abstract of around 300-500 words to be considered in the book to the editor-in-chief, Dr. Muhammad Subhan (Head of Maritime and Port Management Studies), by 15 June 2017. Please send your abstract only by email to: msubhan@uum.edu.my

At this stage, the publisher (UUM Press, Malaysia) has expressed initial interest in publishing this book. The publisher, however, will make their decision after reviewing a final draft of the manuscript including the proposed chapters. It is envisaged that final completed chapters (book final draft) would be submitted by the editor-in-chief to the publisher by 12 March 2018.

The length of chapter will be a maximum of 8,000 words (not including references). Chapters must not have been published or submitted elsewhere for any consideration for publication. Previous presented conference papers or unpublished thesis are welcome after necessary revisions from its original version.

Objective of the book

Accordingly, this call for book chapters will assemble an edited collection of chapters on maritime management issues in trade, supply chain and security in Asia. The main objective of the book is to provide comprehensive evidence of research, case studies, practical and theoretical papers on the issues and challenges surrounding maritime management and their practical implications. The book will serve as a valuable resource for government officials,

academics, researchers, consultants, students and other concerned parties whose works are related to maritime management.

Target Audience

This book will be a useful reference for academics, students, policy-makers and professionals in the fields of international business and trade, port management, logistics and supply chain, economic planning, spatial planning, maritime security, sea transportation, environmental management, law at the sea and general aspects of maritime management.
