Introduction

Colombia is a country in northwestern South America that borders the Pacific Ocean and the Caribbean Sea. Neighboring countries include Brazil, Ecuador, Panama, Peru, and Venezuela. The geography of Colombia is diverse with flat lowlands and the high Andes Mountains. The government system is a republic in which the executive branch dominates government structure. The chief of state and head of government is the president. Colombia has a pro-market economic system in which the prices of goods and services are determined in a free price system. Colombia is a member of the Andean Community (ANCOM).

Risk Assessment (Provided by Coface)

Country rating: B - Political and economic uncertainties and an occasionally difficult business environment can affect corporate payment behavior. Corporate default probability is appreciable.

Business Climate rating: A4 - The business environment is acceptable. Corporate financial information is sometimes neither readily available nor sufficiently reliable. Debt collection is not always efficient and the institutional framework has shortcomings. Intercompany transactions may thus run into appreciable difficulties in the acceptable but occasionally unstable environments rated A4.

Strengths

- Ports on two oceans
- Large population (almost 50 million people)
- Plentiful natural resources (coffee, oil, gas, coal, gold)
- Significant tourism potential
- Large foreign direct investment level

Weaknesses

- Shortcomings in road and port infrastructures due to historically low levels of investment and difficult topography
- Problematic security situation because of drug trafficking and illegal mining, as the 2016 peace agreement with FARC is being implemented slowly, particularly in the countryside
- Structural unemployment, poverty, inequality, deficient educational and healthcare systems
- Durably large twin deficits will keep the country vulnerable to changes in investors’ moods
