

Introduction

Cyprus is an island country in the Middle East in the Eastern Mediterranean Sea. Nearby countries include Turkey, Syria, and Lebanon. Geographically, Cyprus is a central plain with mountains to the north and south. The government system is a republic; the chief of state and head of government is the president. Cyprus has a market economy system in which the prices of goods and services are determined in a free price system. Cyprus is a member of the European Union (EU).

Networked Readiness Index (NRI)	40 / 139

Risk Assessment (Provided by Coface)

Country rating: A4 - A somewhat shaky political and economic outlook and a relatively volatile business environment can affect corporate payment behavior. Corporate default probability is still acceptable on average.

Business Climate rating: A3 - The business environment is relatively good. Although not always available, corporate financial information is usually reliable. Debt collection and the institutional framework may have some shortcomings. Intercompany transactions may run into occasional difficulties in the otherwise secure environments rated A3.

Strengths

- Central geographical location between Europe, the Middle East and Africa is a plus for the transshipment industry
- Offshore finance business services, and transshipping hub
- Rich, unexploited offshore natural gas deposits
- Skilled, English-speaking workforce

Weaknesses

- Tensions and internal divisions between the Republic of Cyprus and the Turkish Republic of Northern Cyprus
- The country's undiversified industrial structure makes it vulnerable to global supply shocks
- Slow legal process, poor enforcement of contracts
- Heavy debt load for banks, companies, and households
- Weak industrial diversification (tourism, construction, natural gas, finance)
- The island is close to the conflicts in the Middle East
