

Introduction

Cyprus is an island country in the Middle East in the Eastern Mediterranean Sea. Nearby countries include Turkey, Syria, and Lebanon. Geographically, Cyprus is a central plain with mountains to the north and south. The government system is a republic; the chief of state and head of government is the president. Cyprus has a market economy system in which the prices of goods and services are determined in a free price system. Cyprus is a member of the European Union (EU).

Networked Readiness Index (NRI)	40 / 139

Risk Assessment (Provided by Coface)

Country rating: A4 - A somewhat shaky political and economic outlook and a relatively volatile business environment can affect corporate payment behavior.

Corporate default probability is still acceptable on average.

Business Climate rating: A3 - The business environment is relatively good. Although not always available, corporate financial information is usually reliable. Debt collection and the institutional framework may have some shortcomings.

Intercompany transactions may run into occasional difficulties in the otherwise secure environments rated A3.

Strengths

- At the crossroads of Europe, Africa and Asia
- Eurozone membership
- Tertiary sector: tourism, business and international finance hub, maritime transport and transshipment
- Skilled, English-speaking workforce
- Good quality transport and telecommunications infrastructure
- Offshore gas potential

Weaknesses

- Island divided (since 1974) and tense relations with Turkey
- Small domestic market, isolated, remote and outside the center of Europe
- Poor economic diversification (tourism, property, finance) and limited foreign customer base, with the United Kingdom and Russia providing 36% and 24% of visitors (2016)
- Regional geopolitical instability
- High levels of debt of all economic actors and dependent on external finance
- Huge banking sector, hyper-concentrated and burdened by non-performing loans
- Slow legal process
