

Introduction

Moldova is a landlocked country in Eastern Europe, located between Romania and Ukraine. The government system is a republic; the chief of state is the president, and the head of government is the prime minister. Moldova has a mixed economic system which includes a variety of private freedom, combined with centralized economic planning and government regulation. Moldova is a member of the Central European Free Trade Agreement (CEFTA).

Risk Assessment (Provided by Coface)

Country rating: C - A very uncertain political and economic outlook and a business environment with many troublesome weaknesses can have a significant impact on corporate payment behavior. Corporate default probability is high.

Business Climate rating: B - The business environment is mediocre. The availability and the reliability of corporate financial information vary widely. Debt collection can sometimes be difficult. The institutional framework has a few troublesome weaknesses. Intercompany transactions run appreciable risks in the unstable, largely inefficient environments rated B.

Strengths

- Agricultural production (wine, fruit, vegetables, sunflower, wheat)
- Promising information and communication technology (ICT) industry (over 10% of GDP, and 80% of the output of Moldovan IT companies is exported)
- Association and free trade agreements with the EU (since 2014, extended to Transnistria in 2016), and free trade with EFTA (2023)
- EU candidate status since 2022
- International financial support linked to the implementation of reforms
- Relatively low labour costs
- Accompanied flexibility of currency

Weaknesses

- Poorest country in Europe, high emigration, with 1 million emigrants for 3.4 million inhabitants)
- Dependence on the agricultural sector (27% of employment and 14.3% of GDP in 2023) and the food industry (1/4 of industry), vulnerability to meteorological events.
- Dependence on remittances from expatriates (4.7% of GDP in 2023) and income from cross-border workers (5% of GDP)
- Large informal sector, low productivity, low workforce participation rate (45% in 2023, 41% for women)
- Low manufacturing capacity leading to high import dependency
- Low level of credit (22% of GDP in 2023)
- Corruption, weak governance, oligarchic system and

clientelism

- A secessionist sentiment in Transnistria, and tensions between supporters of closer ties with the European Union and those with Russia
