Risk Assessment (Provided by Coface)

Country rating: D - A high-risk political and economic situation and an often very difficult business environment can have a very significant impact on corporate payment behavior. Corporate default probability is very high.

Business Climate rating: C - The business environment is difficult. Corporate financial information is often unavailable and when available often unreliable. Debt collection is unpredictable. The institutional framework has many troublesome weaknesses. Intercompany transactions run major risks in the difficult environments rated C.

Strengths

- Development of colossal mining resources (coal, copper, gold) with investment reaching 40% of GDP
- Strategic geographical position between China and Europe (Silk Road Development Project)
- Potential for diversification of production, including agribusiness (livestock, dairy products, meat, cashmere) and tourism
- Important donor support (4.8% of GDP in 2019)

Weaknesses

- Small economy vulnerable to changes in commodity prices and Chinese demand
- Landlocked country
- Internal political dissensions
- Massive land degradation, 90% of the vast grasslands prone to desertification (frequent occurrence of dust storms)
- Alarming level of corruption and fragile governance (justice, public expenditure, SOEs, mining licenses and procurement)
- Risks associated with rising inequalities (28% of the population living in poverty in 2018) due to less inclusive mining development
- Insufficient foreign exchange reserves to absorb external shocks
