Introduction

Mozambique is a country in southeastern Africa. It has a coast on the Atlantic Ocean and is bordered by Malawi, South Africa, Swaziland, Tanzania, Zambia, and Zimbabwe. Due to its shape, Mozambique has a varied geography with mostly coastal lowlands and mountains in the south. The government system is a republic; the chief of state is the president, and the head of government is the Prime Minister. Mozambique has a mixed economy combining both traditional and market economic systems. Many citizens engage in subsistence agriculture. However, there is a variety of private freedom combined with centralized economic planning and government regulation. Mozambique is a member of the Southern African Development Community (SADC).

Risk Assessment (Provided by Coface)

Country rating: D - A high-risk political and economic situation and an often very difficult business environment can have a very significant impact on corporate payment behavior. Corporate default probability is very high.

Business Climate rating: D - The business environment is very difficult. Corporate financial information is rarely available and when available usually unreliable. The legal system makes debt collection very unpredictable. The institutional framework has very serious weaknesses. Intercompany transactions can thus be very difficult to manage in the highly risky environments rated D.

Strengths

- Favorable geographic location: long coastline, proximity to southern African markets
- Significant mineral (coal), agricultural and hydroelectric resources
- Huge offshore gas field discovered in 2010

Weaknesses

- Under-diversified; dependent on commodity prices (aluminium, coal)
- Inadequate transport and port infrastructure, which constrains the country's commodity export capacities
- Banking system constrained by government financing needs
- Unstable political and security environment
- Weak governance
- Difficult climatic conditions
