Introduction

Sri Lanka is an island country located off the southern coast of India. Sri Lanka is surrounded by the Indian Ocean, Gulf of Mannar, the Palk Strait, and lies in the vicinity of India and the Maldives. The geography of Sri Lanka includes coastal plains in the north and hills and mountains in the interior. The government system is a republic; the chief of state and head of government is the president. Sri Lanka has transitioned to a market-orientated economy, but the central government is still involved in economic planning. Sri Lanka is a member of the Asia-Pacific Trade Agreement (APTA) and the South Asian Association for Regional Cooperation (SAARC).

*Risk Assessment (Provided by Coface)*

Country rating: C - A very uncertain political and economic outlook and a business environment with many troublesome weaknesses can have a significant impact on corporate payment behavior. Corporate default probability is high.

Business Climate rating: B - The business environment is mediocre. The availability and the reliability of corporate financial information vary widely. Debt collection can sometimes be difficult. The institutional framework has a few troublesome weaknesses. Intercompany transactions run appreciable risks in the unstable, largely inefficient environments rated B.

Strengths
- Diversified agricultural production (tea, rice, coconut, rubber)
- Strategic location at the centre of trade routes between Asia and the Middle East
- Indian, Chinese and Japanese interests
- Strong growth of tourism

Weaknesses
- Agricultural production vulnerable to climate disasters
- Low levels of capital public spending due to debt servicing burden
- Reliant on short-term external financing
- Lack of infrastructure
